

Making a Paper Chain of Angels

Instructions:

1. Cut out as many angels as you want from the patterns on the next page (you can color your angels first if you wish).
2. Cut out along the dotted lines on each angel.
3. Fold the first angel in half along the line between the trumpets and glue the two halves together.
4. Fold the next angel in half.
5. Carefully tuck one half of the second angel through the hole in the first angel. You will have to carefully fold or curve the second angel to make it fit.
6. Glue the two halves of the second angel together.
7. Repeat steps 5 and 6 until your chain is as long as you want.
8. Add glitter to your chain if you wish.
