

AN EASTER DIORAMA

This project is adapted from one designed by Eudora Sellner Walsh.

Materials needed:

Markers, crayons, colored pencils, or water color paints
Scissors
Glue stick or scotch tape

Procedure:

1. Color the angels, the tomb, and Mary Magdalene.

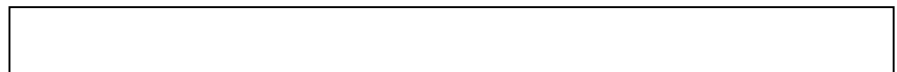

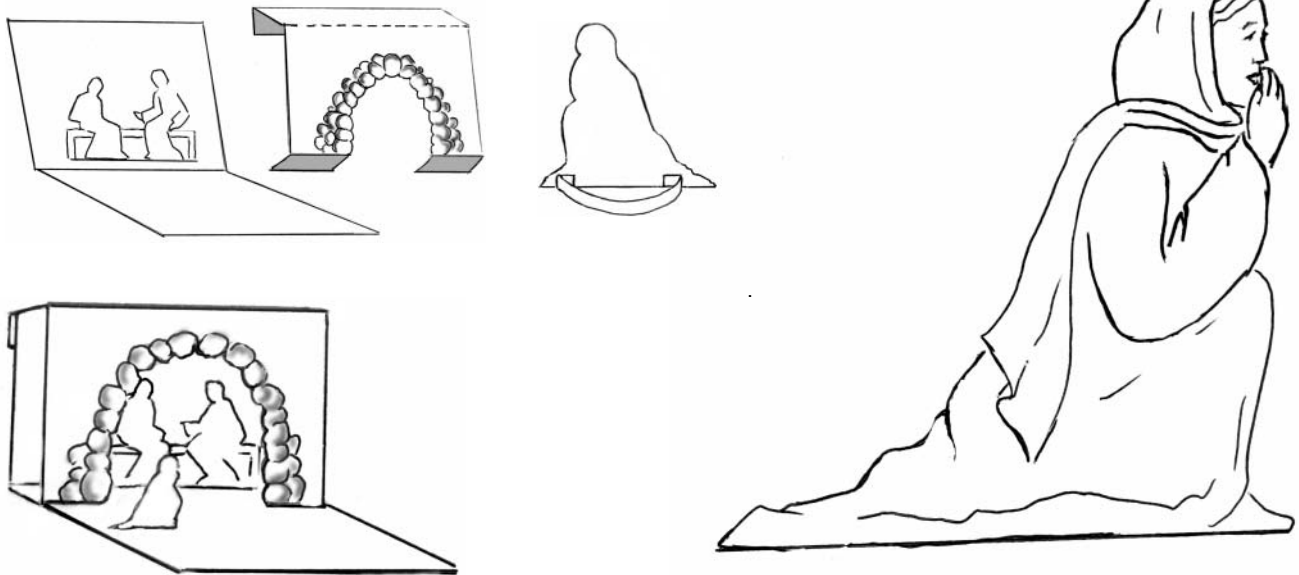

The clothing of the angels is shining white.

What color do you want to make Mary's clothing?

The tomb was probably a cave in a hillside, so you may want to draw grass on the front and top.

2. Take *Part B: Angels at the Tomb* and fold the bottom part toward you.
3. Take *Part C: The Tomb* and cut away the doorway of the tomb. Then fold along the dotted lines, folding each part back—away from you.
4. Attach *Parts B [Angels]* and *C [Tomb]* by taping the top fold of *Part C [Tomb]* to the top of *Part B [Angels]*. Then tape the bottom fold of *Part C [Tomb]* to the bottom of *Part B [Angels]*. There should still be room in front of the tomb for Mary.
5. Cut out the long rectangle and the figure of Mary Magdalene. Bend the rectangle into a semicircle, taping one end to each side of the figure at the bottom. The semi-circle supports Mary and lets you move her around the diorama to peek into the tomb.

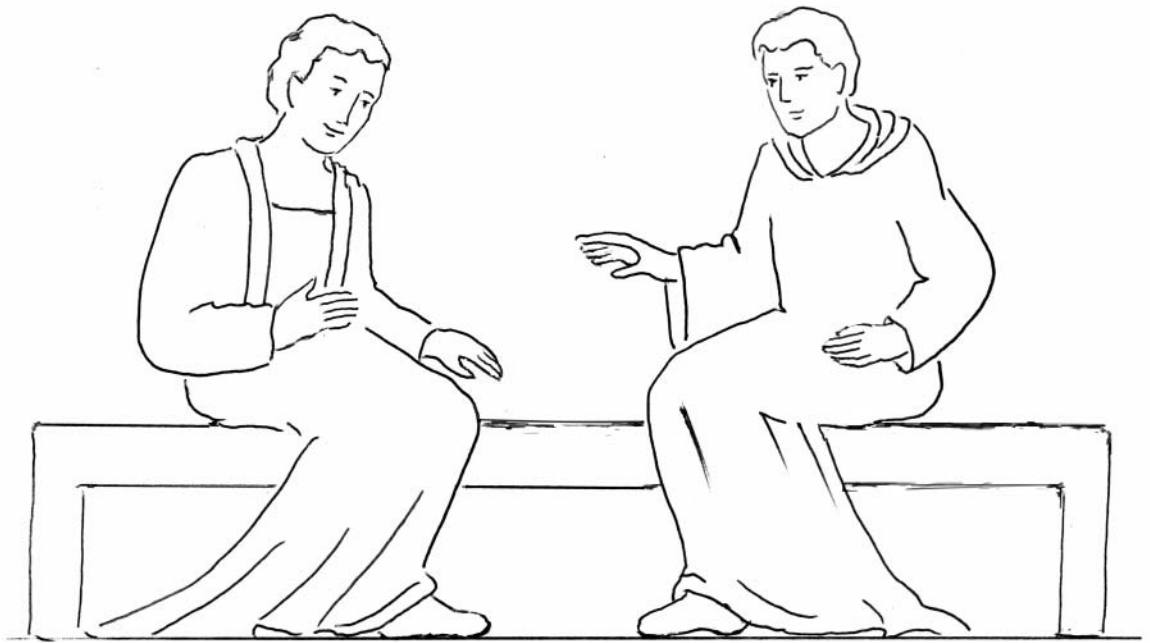

Diagram of Assembly Procedure:

Part A: Mary Magdalene

Part B: Angels in the Tomb

Cut along line solid lines. Fold along dotted lines.

Part C: Tomb

Cut along line solid lines. Fold along dotted lines.
