

FOR REFLECTION

Points of View on the Lord's Crucifixion

Think about the different ways that people may have felt as they watched the Lord being crucified.

- What kinds of thoughts and feelings do you think the chief priests, elders, and scribes had?
- What feelings might the disciples of the Lord have experienced?
- And how do you think Mary, His mother, felt?
- What about other bystanders who may have welcomed the Lord on Palm Sunday?
- Or people who may have seen the Lord heal the sick or listened to His parables?

Do these reflections deepen your appreciation for what the Lord experienced during His final temptation, when the hells challenged Him as to whether the human race could be saved?

Note:

For a group activity, have people take turns presenting the various points of view.
