

Honoring Marriage

It is important for children to know that the adults around them believe in the ideal of marriage and that the Lord will provide every good person with a happy marriage in heaven if not on earth.

This project helps children celebrate marriage:

1. First, let them use gold metallic markers, gold pencils, or gold crayons to color the gold ring.
2. Then the children can draw a picture of their parents or a young married couple inside the gold ring (or glue a photograph there instead).

"Therefore a man shall leave his father and mother and be joined to his wife, and they shall become one flesh" (Genesis 2:24).

"Love with its inmost friendship constantly increases in the wife, and wisdom with its happiness in the husband, and this to eternity."
(*Conjugal Love* 355:6).
