

Emanuel Swedenborg

This project is designed to help children remember how the Lord made His Second Coming through Emanuel Swedenborg.

Suggested Supplies:

- 1 9"x12" sheet of purple paper
- 1 9"x12" sheet of blue paper
- 1 circle template
- 1 brass brad
- 1 white printed paper
- glue
- scissors

Project instructions:

1. Using the circle template, cut out a circle shape on the purple and blue papers. Cut the window *only* on the purple paper.
2. Cut around the three pictures: the Lord holding the open Word, heaven, and Emanuel Swedenborg writing at his desk. Glue these pictures to the blue paper. Be careful to place them equidistant around the circle with the bottom of each one toward the center of the wheel.
3. Place the purple circle on top of the blue one and connect both circles in the center with the brad.
4. Cut out around the printed words of the title for your project and glue it on the purple paper below the window and the brad. Or, you may want to copy these words and print them yourself on the purple paper.
5. Now you can turn the circle with the window to show how the Second Coming of the Lord came about. First the Lord appeared to Emanuel Swedenborg and opened the Word to him, then the Lord opened Swedenborg's spiritual eyes so that he could see heaven, and then Swedenborg wrote down what he saw and heard so that all people for all times can know heavenly truths.
