

Venn Diagram to Compare the Life of the Lord with the Life of Samson

Think about the story of Samson as a prophecy of the Lord's life on earth. While there are many differences, there are some striking similarities. One example is that an angel announced that Samson would be born and an angel appeared to Mary and told her that she would give birth to the Lord. List similar events in the middle of the diagram—where the circles intersect. You can list other events on the left side or on the right, depending on who experienced them. For help with this activity, you may want to read "What Samson Represents" by the Rev. Harold Cranch.
