

CANAANITE CHARIOTS - KING JABIN Joshua 11:4; Judges 4:3

**Directions:** Cut out on heavy lines. Do not cut between horses legs, and be careful not to cut off sides of chariot completely. Fold up at A and down on B at horses' back. Fold up at C on chariot and little tabs E. Before you glue together draw the lattice design on the other side of chariot walls. Color, and glue in place, the longer side of chariot D on inside. Put a drop of glue on each tab E. Glue strip of wood this long  on bottom of chariot at very back. Cut out wheels, and washer hubs F, put one hub on each side of wheel, then push pin through hubs and wheel into strip of wood. Wheels should turn. Cut out charioteer and captain, fold on G and glue body. Bend up bottom, at H. Glue in place in chariot.
