

## **Come and Walk in the Light of the Lord**

*I have come as a light into the world,  
that whoever believes in Me should not abide in darkness.*  
(John 12:46)

Here are three variations on a project to illustrate the importance of looking to the Lord in His Word as we walk the path of life.

### ***Suggested Materials***

yellow construction paper  
pencil, pens, or other drawing materials  
scissors  
optional: masking tape or removable scotch tape

### ***Procedure***

1. Make yellow footprints by outlining your feet (or those of the children in your care) on yellow construction paper and then cutting them out.
2. Set the footprints on the floor so that they make a path to the Word which gives us light. If you like, you can make the footprints go right up to where the Word rests.

### ***Alternative Projects***

- Write quotes from the Word on "footprints" and display these near your worship center or on a bulletin board.
- Cut smaller footprints from the yellow paper and arrange these on black paper so that they lead to the open Word. Use glitter or strips of yellow paper to make bright light coming from the Lord's Word. Add this text slip:

Come and let us walk in the light of the Lord (Isaiah 2:5).
